Kavril

Kavril from Hamburg, Germany offering a mixture of Hardcore, Crust Punk, Black Metal, Sludge and Doom was founded in 2016. The half-german, half-greek four piece released three EPs and two albums since then and played shows with bands like IGORRR, 1000 MODS, MONOLORD, DEATHRITE, PHANTOM WINTER and many more.

Shovel

Shovel's sonic journey starts as an experiment to bring together the immediacy of heavy, intense riffs and existential screams and the elusiveness of otherworldly sounds and atmospheres. Emerging from the mud of sludge, doom, and post metal, Shovel's music travels through the openness and freedom of psychedelic textures to end up crawling in black metal claustrophobia and despair, creating an unconventional and distinct sound.

Chains

Satori Junk

Satori Junk was born in Milan (Italy) among the dense fog and the smoke of the urban waste landfills. An acid cocktail full of fuzz and electronics. Rough sounds, repetitive and loud overwhelming riffs and lyrics coming from dreams, hangover nightmares and horror movie atmospheres. The band's main idea is to trap the listener in their rabid and uncomfortable distorted world.
