## **Coltaine**

Post Metal

Coltaine is the keyword to an adventure in sound. Formed in 2022 in the mystic atmosphere of the Black Forest, Germany, Coltaine transport their intuitive creations into unusually exciting and diverse microcosms of dark, atmospheric psychedelia whose feeling is that of foggy, post metal-tinged acid rock with the sombre hues of blackgaze. Their newest offering "Forgo en Ways" gives the listener immediate access to an unreal world where the endlessness of life and death come alive within songs that blend complete obscurity with the hopeful lights of pure spiritual energy. With a personal sound that defies all categorizations, Coltaine are ready to embark on a quest across the deep, misty realms of their own musical craft.

## **Endonomos**

Epic Death/Doom Metal

Endonomos ist die Idee des österreichischen Multi-Instrumentalisten/Produzenten/Session-Musikers Lukas Haidinger, der vor allem dafür bekannt ist, extremen Metal zu spielen (für Bands wie Profanity, Nervecell, Distaste u.a.). Als langjähriger Doom-Head hat er endlich seinen eigenen Weg gefunden und kreierte düstere und dennoch melodische Doom/Death-Songs. Zusammen mit einigen seiner engsten Freunde, die ihn in dieser neu gegründeten Band begleiten, entstand ein bedrohlicher und dennoch epischer Sound. Ein MUST für Death/Doom-Fans.

## **TerZiele**

Blackened Post/Doom

With a shared preference for Sumac, Cult Of Luna, Amenra, Briqueville and bands alike, the band members of Ter Ziele decide to join forces in the fall of 2020. Having great affinity for post- and black metal, they scan the existing borders of the doom genre, thus giving it their own spin to it through burdensome riffs, crushing drums and eerie vocals. The lyrical focus is on the greater philosophical, scientific and esoteric questions such as the obstacles of the psyche and the wistful prospects for mankind. With shows at Roadburn Offroad, Into The Void and Soulcrusher Festival among others and as a supporting act for Doppelord and Pothamus, Ter Ziele has made a promising start, leaving an early mark on the Dutch metal scene. As a runner up the band released two singles in the first quarter of 2022. Behind the curtains a full-length record is in the making, planned to be released in 2024.
