King Buffalo

King Buffalo are a power-trio bonded by three forces: flow, space, and, of course, heaviness. Their pace is a smooth cadence and perpetual hypnotic groove - it's deliberate, powerful, and always moving. Space is prevalent and exudes the group's blossoming confidence (and patience) - providing air for suspense, tension, and crescendoing releases. With added breathing room, the explosive parts and powerfully bust through like a blues-tinged, psychedelic, kraut-rock-powered tsunami. Bare witness to King Buffalo's journey as they cruise onward and upward, leaving behind an amazing Soundtrack as they go.

Meat Cheese

MEAT CHEESE is a Power Duo from Tirol/Austria. Gregor Lindner (Bass, Vocals) and Michael Posch (Drums, Backing – Vocals) started in 2019. They describe their sound as „Flash Rock“, a momentum of extatic sound and energy! Meat Cheese leave a lot of space for improvisation in their compositions. Don't overthink, have fun and head first they break the sound barrier! Gregor and Michael deliver their songs always tasty and with a lot of passion to the audience! After 2 years of songwriting and Live – shows they recorded their first Album called „Fromage en Extase“ and will release it on Feb 18th 2022 via Two Eleven Records! In 2023 they released the single „Moanin Acoustic“ In autumn of 2025 Meat Cheese plans to release their second full length album. Love, Peace and Meat CHEESE
