## Imperial Triumphant

There's a murmuring amidst the monoliths of New York City as the sounds of the megalopolis churn below. The city becomes the sound of a human engine that throbs like an atrophying heartbeat; the decaying city of the future in Fritz Lang's Metropolis. That's the grandiosity that New Yorkers, IMPERIAL TRIUMPHANT have found equal amounts of beauty and horror within. With their latest release, Goldstar, the masked triumvirate continues their exploration of the urban and arcane. The band has found inspiration in the sound of metal pushed to its darkest extremes, gilded, art deco temples, and looming cityscapes.

## Sigh

Sigh have experienced lots of US/ Europe tours including the festival appearances such as Hellfest (France), Graspop Metal Meeting (Belgium), Brutal Assault Open Air (Czech Republic), Roadburn Festival (Holland), Hammer Open Air Festival (Finland), Damnation Festival (UK), Inferno Festival (Norway), Under the Black Sun (Germany, headliner), Metal Magic Festival (Denmark, headliner), Maryland Deathfest (USA) and many more. Their show is truly theatrical and spectacular with lots of fire and blood.
