Narcotic Wasteland

Narcotic Wasteland is a relentless force in the metal scene, delivering a crushing blend of technical precision, unyielding aggression, and raw energy. Fronted by Dallas Toler-Wade—renowned vocalist and guitarist best known for his work with Nile—he brings his signature technical prowess and intense energy to the band. On this tour, in celebration of the 20-year release of *Annihilation of the Wicked*, Dallas will perform two of the songs he wrote for the album: *Lashed to the Slave Stick* and *The Burning Pits of the Duat*, giving Nile fans the unique opportunity to hear these tracks played live by the original voice and composer. On drums, Joseph Howard unleashes a torrent of precision and power, driving the band's pummeling rhythms with thunderous intensity. His dynamic performance creates the perfect foundation for the band's heavy and often dark sonic atmosphere. Kenji Tsunami commands the low end with inventive, hard-hitting bass lines that add both depth and texture, solidifying the band's signature wall of sound. His stage presence and musicianship bring an extra dimension to Narcotic Wasteland's live assault. Together, Dallas, Joseph, and Kenji forge an unstoppable musical unit—one that captivates audiences with high-octane performances and uncompromising compositions. With unmatched technical skill and a shared vision for pushing metal's boundaries, Narcotic Wasteland stands as a true powerhouse in today's extreme music landscape.
